

M8-WF• A CLASS

A60 HINGED SEMI-WATERTIGHT FIRE DOOR

HELLBERGS™

TIGHTER CLOSURE

Hellbergs semi-watertight/spraytight fire door with rebated door leaf. Approved for use above freeboard deck. Tested and approved up to 3,5 meter water pressure either side of door. The door can be used on external positions where there is no need for heavy weathertight doors

FIRE CLASS: A60

TYPE: HINGED SINGLE

CERTIFICATE: DNV MED-B

MAX. SIZE C/O: 1000 x 2000mm WxH

DOOR LEAF

Made as standard in 2mm mild steel. Option is galvanized steel or stainless steel 304 / 316L. As standard the door comes with 3 pcs Hellbergs galvanized hinges. Stainless steel hinges on request.

DOOR FRAME

Made as standard in 3mm mild steel. Option is galvanized steel or stainless steel 304 / 316L. As standard the frame comes delivered for welding onto bulkhead.

SILL

Hellbergs M8-WF comes as standard with sill alt. SA1 made in same material as frame. As option sill can be made in stainless steel 304 / 316L. Please see drawing for other sill alternatives.

LOCK AND HANDLE

Lock GSV Schwepper 1301 GZ/65, handle and plate with hole for cylinder. Or lock GSV Schwepper 1301 GF/65, handle and plate without hole for cylinder. Cylinder plus thumbturn or cylinder plus cylinder can be supplied on request.

HARDWARE

Door is supplied with three dogs operated by single lever on both sides of door. Dogs and single lever must be manually closed.

FINISH

Door leaf, frame and sill comes as standard with our powdercoat primer. Option is door leaf and/or frame painted in RAL or NCS color. Stainless steel doors can be supplied without painting.

OPTIONS

The door can be supplied with vision panel, kick-plate, door closer and indicator.

The Close-up

M8-WF comes with three strong closing dogs operable with single lever from each side of door.

DOORS YOU CAN RELY ON. ALWAYS.

Quality always comes in first hand for us. Therefore all A-class hinged doors are supplied with three hinges as standard.
